THERE'S A WORLD OF DIFFERENCE

Nortrup-Liming **Nuptials Sunday**

Sunday, June 12, is the wedding date for Miss Janice Nortrup of Meredosia and Bruce Liming of White Hall. Friends and relatives of both families are cordially invited to attend the nuptials to be solemnized at 2:30 standard time in the afternoon at St. John's Luth-

eran church at Meredosia. The bride-to-be is the daughter of Mr. and Mrs. Edwin Nortrup of Meredosia. The prospective bridegroom is the son of Mr. and Mrs. Earl Liming of White Hall.

POWER-THE NORTHWEST'S BIGGEST HEADACHE-The Pacific Northwest, for two decades considered a sort of hydroelectric wonderland, is facing the possibility that in five or 10 years its population and industry growth will surpass its power production. Instead of last winter's peak generating capacity of 7,750,000 kilowatts, the demand in the winter of 1964-65 will probably be 14,000,000 kilowatts. So more dams will be needed to harness the Columbia River and its tributaries In the last 20 years, Congress has tossed two billion dollars into the region for Federal projects, but this sort of Federal aid is coming to a halt Private power advocates want government out of the power picture, except where dams are built in "partnership" by the Federal Government and privately or local publicly owned utilities. The Eisenhower administration agrees with this view. This is a political issue which will get hotter as the 1956 presidential campaign nears. Map shows the dam situation in the region. Controversial projects are those proposed dams which are meeting delay due to the fight between public and private power advocates.

WHY You Will Like COROVEL!

• One Coat Covers-New or old plaster, paint, wallpaper, cinder or concrete blocks, wallboard, and other similar building materials with amazing ease.

e Easy to Use-Brush or roll it on. Corovel doesn't show laps . . . doesn't pull or drag. Dries in minutes!

• Odorless-New Corovel has no unpleasant "painty" smell during application . . . no lingering odor of any kind after it is dry.

e Easy to Clean-Up-Corovel can be washed from brush, roller, hands, etc. with ordinary water before drying.

• Extremely Durable-Made of the finest synthetics and latex . . . Corovel defies the hardest household usage. It's soil-resistant because it's non-porous . . . cleans with damp cloth.

· Colors? They're practically limitless! See them!

Here's where all that wonderful performance begins!

They're all true—all the wonderful things you hear about Pontiac's great performance . . . the way it sweeps uphill or down with the same effortless ease . . . the tremendous burst of passing power that is always available . . . the thought-quick response in stop-and-go traffic that makes the car seem part of yourself . . . the smooth, quiet way it goes about its business however hard or far you drive.

Lift the hood of a Pontiac and you'll be face to face with the reason. That compact power plant nested there may look much like other V-8's-but that's where your eyes deceive you!

The Strato-Streak V-8 is filled with engineering "firsts" that make it far and away the mightiest engine ever to appear in Pontiac's price field. And it's one of the many Pontiac advantages you can't get anywhere else. Pontiac alone gives you the terrific drive of Strato-Streak V-8 performance.

This performance, remember, comes in a distinguished, future-fashioned beauty that is tagged with a price any new-car buyer can readily afford. Come in and try the result—the fastest-selling Pontiac of all time. The car is ready whenever you are! Make it soon

cleans carpets, upholstery

Blue Lustre makes colors bright and clear

Blue Lustre is a concentrate that mixes with water to produce a foam that can be brushed into carpets. There's no soaking, the pile doesn't sog or mat . . . rugs dry soft and fluffy, colors are bright and clear. After capet has been cleaned, a new stain or traffic lane can be foamed away safely . . . Blue Lustre leaves no ring. You use a long-handled brush in a standing position . . . it's just like playing shuffleboard. No hands and knees work required. Blue Lustre is gentle . . . doesn't harm fine fabrics. Cleans Oriental rugs and overstuffed furniture as efficiently as carpet. It's economical, too! One-half gallon of the concentrate (2.59) will clean three 9x12-ft. rugs. Also available in quarts (1.39) and gallon

OUR GROWING COMMUNITY

IS AIDED BY INDUSTRIAL DEVELOPMENT

Looking south toward the Finish-Products Building of Mrs. Tucker's showing the new addition on the west.

An expansion of 160 feet on each end of the Finish-Products Building at Mrs. Tucker's will give additional floor space of 48,000 square feet. The addition will be used for storing, packaging supplies and finished products when completed late this summer. This project is necessary to further expand Mrs. Tucker's evergrowing sales territories.

Make payday "saving day." Why not stop in next payday and start your savings account?

Customers' Corner

Every year about this time, members of high school and college graduating classes all over the country proudly invite friends and relatives to attend their graduation exercises. And-just as proudly-we invite these fine young people to consider A&P careers.

During the 95 years A&P has been part of the American scene we've welcomed generations of June graduates to the ranks of our loyal employees. They've found A&P a good place to work . . . and they've helped to make it a good place to shop. But we're constantly striving to make it still better. If you have any suggestions, or if you are interested in joining our organization, your friendly A&P Manager will be glad to talk with you.

Want to watch the gas pumps go by?

Ny airline pilot will tell you that A one big reason for the modern plane's greatly increased cruising range aloft is the variable pitch propeller.

To get off the ground, of course, the pilot needs plenty of acceleration, for take-off and climb. So his propellers must "bite" into air at a certain angle for utmost performance.

But once the plane is at cruising altitude, great power acceleration is no longer needed-fuel efficiency is. So the pilot switches the pitch of his propeller blades to high-economy angle - and gets a lot more mileage from the fuel in his tanks.

That's why Buick's new Variable Pitch Dynaflow* is such a sensation across the nation.

For the same aviation principle that brings this two-way magic to the modern plane is now found in the twenty propeller-like blades whirling in oil inside the Dynaflow unit.

Just by pressing the gas pedal way down, you switch the pitch and get instantaneous getaway response or safety-surge acceleration.

Just by easing up on the pedal, you change the pitch to high-economy angle - and get new and better gas mileage in all normal driving and cruising.

It's a spectacular and sensible achievement - this new Dynaflow Drive-a brand-new thrill and a brand-new thriftiness.

And with it goes the might of recordhigh V8 power - and the level luxury of Buick's all-coil-spring ride—and the spacious roominess of Buick's broad interiors - and the host of other advanced features that add to Buick's brimming value.

Come in and try what is very definitely the performance thrill of the year-and see for yourself why Buick sales are soaring to all-time best-seller highs.

*Dynastow Drive is standard on Roadmaster, optional at extra cost on other Serie.

Things that take some doing...

Done with Sunbeam energy!

When you're in for a busy morning - there's nothing like a Sunbeam breakfast to start the day right. Sunbeam Bread gives you energy plus nutrition. But that's only one reason why Sunbeam Energy is so good. It also provides the kind of energy that stays with you from meal to meal.

> WITH 3 FOOD EXTRAS ADDED: BUTTER CALCIUM VITAMIN D

Depend on

Sunbeam Energy

It lifts you up...never lets you down!

No, all energy foods are not the same

Quick energy foods raise the blood sugar level but dip it sharply in a relatively short time. Energy so quickly

burned by the body is just not there when you need it - that's why you get that hollow feeling or between meal slump.

But when you eat protective foods like Sunbeam Bread, your blood sugar level rises steadily and maintains a high level of energy far longer. Sunbeam Energy is there to call on when you need it.

The most modern truck for your money!

Only in Chevrolet's new Task-Force line will you find all these advanced features . . . the marks of a truly modern truck

Most modern in design

With new Work-Styling. New Task-Force models are exactly suited to the job-and look it! That's because two distinctively different design treatments are put to work-one for light- and medium-duty models, another for heavy-duty jobs. Both, clean-lined and modern!

New Custom Cab. Features include - Nu-Flex foam rubber seat cushion, harmonizing two-tone interior, bright metal outside moldings; even an optional fullview rear window to match the panoramic windshield.

New Cameo Carrier. The sports model of the truck field! Long and low, with smooth, fleet lines-a completely new idea in truck design, specially built with special jobs in mind.

New Colors and Combinations. A bright new list of modern colors and two-tones carefully selected to add the final Task-Force styling touch. Colors that call attention to your business!

Most modern in comfort and safety

New Flite-Ride De Luxe Cab. Stronger construction throughout, a big safety factor! Seats are softer; more shoulder and head room. Newly designed instrument cluster is easier to read.

New Panoramic Windshield. Wider forward vision that means safer driving! New glass-guard molding completely surrounds side windows, reduces chance of breaking.

New High-Level Ventilation. Air is drawn in through louvers at cowl level. Regardless of the weather, efficient air circulation is maintained.

New Concealed Safety Steps. Concealed steps stay free of snow, ice and mud. Make entrance and exit easier and safer.

Power Brakes standard on 2-ton models. Optional at extra cost on all others. For city delivery or long hauls, Power Brakes reduce driver effort, add to safer going.

Most modern in performance

Shortest stroke V8's in any leading truck, most modern sixes, too. You can pick the right power for your job. All engines have a modern 12-volt electrical system.

New Suspension, front and rear. Takes you over back roads and rough terrain with new, smooth-riding ease. Drivers find Task-Force trucks easier to handle.

New Overdrive and Hydra-Matic. New gas-saving Overdrive cuts engine wear! Optional on 1/2-ton models at extra cost. Hydra-Matic is an extra-cost option on 1/2-, 3/4- and 1-ton models.

Power Steering. Turning effort is reduced as much as 80% with Power Steering on the job. Here's an extracost option that provides extra driving ease and safety.

Come in soon. Find out how much better off you'll be with a modern truck-on the job today and at trade-in time tomorrow!

Get the most for your new truck investment in the most modern trucks money can buy!

Chevrolet's new Task Tord truck line!
